- Minimalistic shape and design
- Possible to position pendant in different angles
- Change position with magnet on the cord

Angle is contemporary and exclusive lighting with an industrial look. The special feature of this lamp is the ability to determine the direction of the light via the magnet mounted on the cord. The lamp looks great in clusters of several units which are angled differently. It creates a gorgeous expression and adds a bit of ambience to any room. Designed by Maria Berntsen

Angle in white-grey is very modern and has lots of uses – for example, use it to illuminate the reading corner or in the kitchen, where the light can be directed to where the need is particularly great.
